Internet radio is cost effective when compared to other forms of advertising. Reaching thousands of people simultaneously worldwide, making it one of the most economical methods of advertising.

Internet radio is highly accessible and truly a portable medium, it can be heard anywhere: at home, at work, in the car and is therefore highly intrusive.

Internet radio listeners use computers, smart phones and tablets while streaming and are more likely to visit a website or social media page. This benefits your business looking to drive traffic to your websites or blogs.

Advertise with ZTR.FM and let us promote your business locally with worldwide exposure.
